# OASIS MW8EBQY RECESSED HANDS-FREE BOTTLE FILLER WITH QUASAR UV OUT

The Oasis MW8EBQY Hands-Free Recessed Bottle Filler with QUASAR UV Out is a streamlined recessed unit that takes up less space and combines technology and style.

It has a high cooling capacity ideal for refilling bottles and cups in any environment. The water is treated by a UVC-LED light via the QUASAR UV technology which nullifies any harmful pathogens.

## AVAILABLE OPTIONS:

CHILLED WATER

**60L** PER HOUR

Recessed design takes up no floor space and seamlessly fits into any environment

'Bottle Saver Zone' LED screen notifies the user every time a plastic bottle is saved from landfill

QUASAR utilises a UV light to provide a physical water treatment that eliminates viruses, bacteria, and other pathogens

Electronic sensor activates the water flow for a smooth, hands-free dispense
