

# Aquabar box

Under the counter units for a discreet yet powerful water dispensing performance

- A space-saving hydration point that efficiently provides high quality water to offices and HORECA working environments.
- Designed and made in Italy with high quality materials.
- 60 L capacity in Cold & Ambient, or Cold & Sparkling (Fizz) options.

#### Mains-Fed Water Cooler

Under the counter

### Product features and benefits

COOLING CAPACITY

# 

#### Space saving high quality design

Designed and made in Italy, built with high-quality stainless steel for better look and durability.

It can be installed with any type of tap/font dispenser to meet any customer practical and aesthetic needs.

Pump protection system in case of water supply shut off.

Drip tray options:

- Recessed with waste
- Surface mounted
- Tap clamp

#### Efficient and sustainable technology

The machines use Ice Bank cooling technology for high volumes of consistently cold water, making them a necessity in busy HORECA environments, where large quantities of consistently ice-cold water are required.

The product line uses R290, a naturally occurring refrigerant gas that does not contribute to global warming.

Aquabar Box 60

#### The best water choice

These under the counter solutions come in a 60 L/h capacity to suit all type of needs.

Choice of Cold & Ambient, or Cold & Sparkling options.
