Countertop / Freestanding

# C3 Firewall

Modern and elegant bottle-free water dispenser with excellent purification performance

- Sleek aesthetics and reliability make this machine a popular product for small to medium size workplaces in the healthcare, educational and corporate environments.
- Firewall® safely purifies water up to 99.9999% bacteria-free and 99.99% virus-free.
- Up to four water options.

## Product features and benefits

### Elegant and professional design

Compact and modern design crafted with durable silver-colored materials, to seamlessly complement any workplace interior.

Touch sensitive and intuitive controls facilitate the unit's performance for easy dispensing operation.

The user interface features LED UV fault indicator for easier servicing.

The 215mm dispensing height is suitable to accommodate average size reusable bottles.

300 ml removable drip tray featuring BioCote® antimicrobial surface protection.

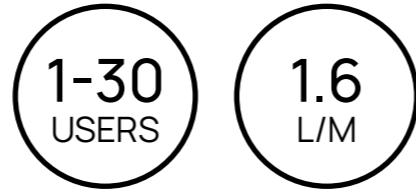

### Water of your choice

Available in 2 water options: Hot & Cold, or Cold & Ambient.

Two-steps action hot water safety mechanism can help to avoid accidental spillage.

The enclosed dispense alcove protects the user from splashing when dispensing water, and it is perfectly shaped to accommodate re-usable water bottles.

The product line uses R600a, a naturally occurring refrigerant gas that does not contribute to global warming, in addition to offering greater energy efficiency with the use of a quieter compressor.

RECOMMENDED

FLOW RATE

### Superior purification performance

The key plastic surfaces surrounding the dispensing area are infused with BioCote®, a silver ion additive that provides continuous antimicrobial protection against a broad spectrum of bacteria, mould and fungi, and reduces the risks of cross-contamination.

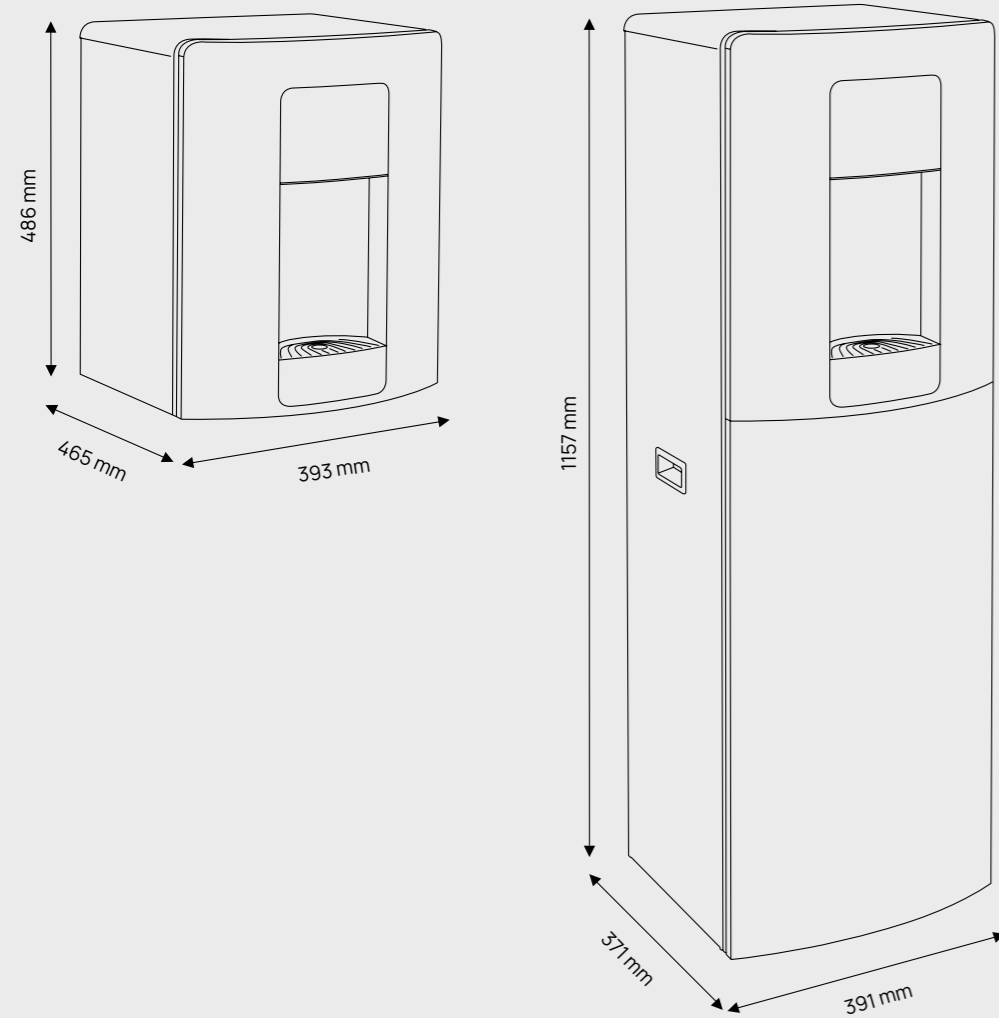

Patented Firewall® UV-C purification technology guarantees microbiologically safe water by deactivating up to 99.9999% bacteria, 99.99% viruses, and 99.9% cysts.

# 99.9999%

Firewall® UV-C purification technology thoroughly purifies the water all the way through to the point of dispense.
