

Freestanding Contactless Chilled Bottle Refill Station

This modern freestanding bottle filler is suitable for public buildings, gymnasiums, sports complexes, hospitals, schools, and offices.

- Space-saving, intuitive design
- Hands-free water dispensing
- Safer hygiene features

Product features and benefits

Space-saving design

This simple, compact unit is sure to fit in with any environment - the cabinet occupying little more than one square foot of floor space.

Contactless operation

This unit is touch-free, meaning users can dispense water with just a wave of their hand; minimising contact and preventing the spread of bacteria.

An integrated electronic sensor enables contactless activation, and a 30 second shut off timer means no water is wasted.

Hygienic unit for busy environments

Freshield® protection utilises a silver-based antimicrobial compound ensures perfect hygiene, combating bacteria, fungus, and odours.

The built-in 100 micron strainer prevents any particles from contaminating the water before it enters the waterway, ensuring that users are provided with the purest water they can receive.

The stainless steel finish ensures that cleaning this unit is easy.

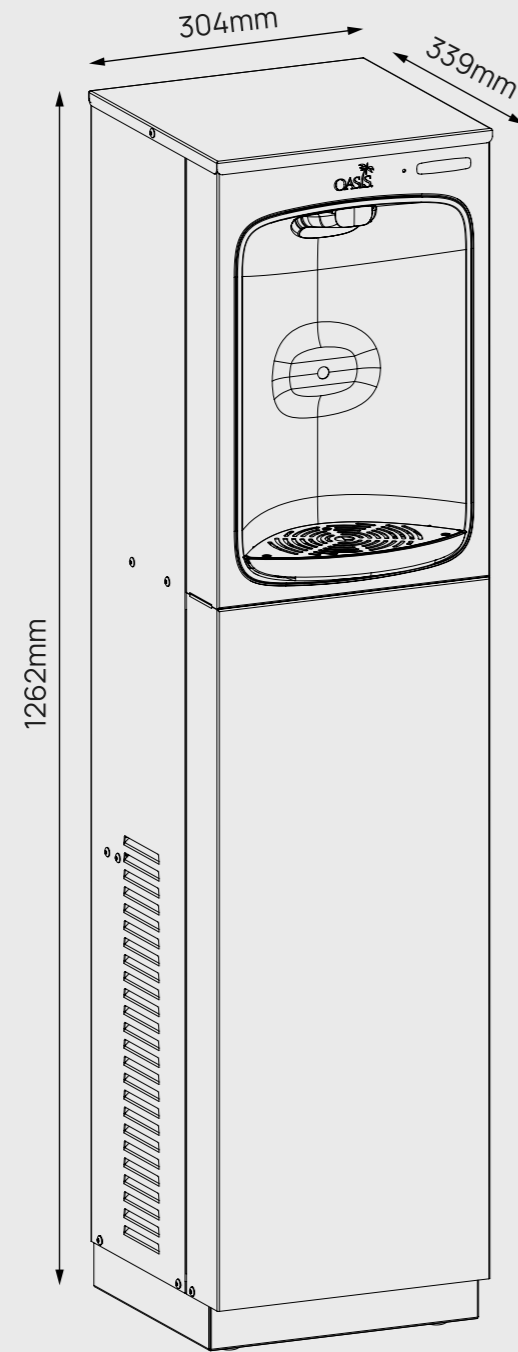

FLOW RATE

These units offer a large dispensing space, which is suitable for a variety of bottle filling requirements for users on the go.

Technical specifications

Specifications

Model	PCP8EBFY
Filtration	Option to add a filter
H x W x D (mm)	1262 x 304 x 339
Dispensing area height (mm)	330
Weight	33.6 Kg
Operation	Contactless
Chilled water production	60 LPH
Features	Digital bottle counter
Certification	ADA

Installation requirements

Power supply	220-240V, 50/60Hz
Water supply	Minimum 2.5 Bar
Mains waste	Requires mains waste
Ventilation	Requires 100mm air gap around unit

Water options

Ambient	Cold	Hot
