

OAS167

OASIS P8EBQY HANDS-FREE FILLER + VERSACOOLER WITH QUASAR UV OUT

The Oasis P8EBQY is a combination of a bottle filler and drinking water fountain, with the addition of QUASAR and Freshield hygiene protection.

It also has a high cooling capacity for busy environments, perfect for refilling bottles and cups, whilst the drinking fountain allows for on-the-go hydration.

These bottle fillers come with QUASAR UV treatment technology. It is an effective and safe way to eliminate viruses, bacteria and other contaminants from water.

AVAILABLE OPTIONS:
